

Why REVA Infratech?

Reva Infratech is a precision engineering and process-driven company, and all the manufacturing, process follows a patented German technology that delivers superior quality manufacturing process achieved through CNC and PLC machines, with very minimal scope for manual intervention. Our commitment to quality and customer satisfaction has been appreciated far and wide. We are now stepping ahead for investment in infrastructure, people and technology (through backward and forward integration) to commission a state of art extrusion plant, which will help us to serve wide array of customers from varied industries.

Who we are?

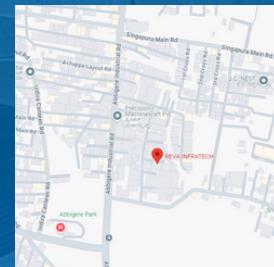

Reva Infratech is a leading brand of UPVC windows and doors, known for its customer-centric approach and aesthetic design, and has been growing continuously through our customer referral network creating an unbeaten stand in the industry.
